

# Assessing Grief and Needs of Family Caregivers in Dementia Care

## Details

Date: 25/6/2021 (Friday)  
Time: 0900 - 1715  
Language: Cantonese  
Format: ZOOM  
Fee: HK\$400

## Objectives

1. To identify the specific needs and experience of care partners in the dementia care journey
2. To understand and assess the grief of family caregivers through the Chinese version of the Marwit-Meuser Caregiver Grief Inventory
3. To empower the care partners with the dyadic intervention and design a working plan through "PREFERS" model

## Target Audience

Nurses, Social Workers, Therapists and Health Care Professionals

0900 - 0910

Registration

0915 - 1045

**Prof. Chan Chi Ho, Wallace**

(Associate Professor, Department of Social Work, The Chinese University of Hong Kong)

Introduce the concept of pre-death grief and how to assess and respond to pre-death grief in dementia care

1100 - 1230

**Prof. Cheung Sze Ki, Daphne**

(Assistant Professor, School of Nursing, The Hong Kong Polytechnic University)

Understand the dyadic intervention and strategies to engage the informal caregivers in dementia care

1400 - 1715

**Dr. Chui Chi Man, Kenny**

(Chief Training Consultant, Jockey Club Centre for Positive Ageing)

Demonstrate the model of "PREFERS" with the Chinese version of Zarit Burden Interview and review the caregiver services
